## 2. Photos of your landscape are critical in sharing your story

- Include at least one overall, wide-angle "curb appeal" shot as viewed from the street.
- Provide before and after images. Please notify us if this is not possible.
- Avoid low quality or distracting photos. Shoot for beauty and show off your hard work!
- Provide your best quality photos either digitally on a disk or thumb drive, or as photo prints.
- Visit [www.landscapetest.com/tips/](http://www.landscapetest.com/tips/) for photo-taking tips to improve your chances.

## 3. Include a written statement (page 2 of this application)

### a. Write a brief story about why you elected to install a WaterSmart landscape

Include details about the design, installation process, and any benefits you've found. We want to hear your story!

### b. List the water-wise plants in your landscape

Either botanical or common names, please provide a list of the main plants in your design.

### c. Describe your watering system as best you can

This includes any efficiency improvements like drip irrigation, high efficiency spray nozzles, smart controllers, rainwater catchment, gray-water systems, or other irrigation methods.

## 4. Sign and send
